

**Patently Inventive - A Guide to Innovation**

Inspiration, ingenuity, and innovation unite as we explore some of the most transformative inventors in the world. From technology to medicine and flight to improvements in everyday life, meet some famous, and not so famous, inventors who have changed the world. Explore their inquisitive natures that led them to great things and test your own inventive skills as you tackle challenges that spark creativity, originality, and problem solving. As a great inventor once said, "No man ever made a great discovery without the exercise of imagination." Get ready to imagine and invent with Patently Inventive!

**Designed for Middle School**  
**24, 1-hour activities**  
**Materials for up to 15 students at a time**

**Topics**
