

# Tic-Tac-Know

**Objective:** Demonstrate increased knowledge of word meanings

**Materials:** Large tic-tac-toe board to lay on floor (An old shower curtain divided into sections with colored masking tape is inexpensive and stores easily!); bean bags – either two different colors or marked with X's and O's (old socks filled with rice or dry beans and tied shut works well); word cards

**What to Do:** This game works best for either two players or two teams. Place a word card in each section of the board. Have the first player toss a bean bag onto a section of the board. If they can provide the meaning of the word, their bean bag can stay where it is, and, if not, the bean bag must be removed. Have students take turns until someone gets three in a row. If desired, replace the word cards with new ones and begin another round!
